## Installation Precautions

The components and wiring should not be installed around any moving parts, keep away from ignition parts, fuel lines, or any hot exhaust. Speakers should not be installed where they might inhibit safety features on the vehicle (i.e. lights, horns, brake levers, etc.). To ensure safety of the mounted speakers, always check the mounting conditions (e.g. the bolt tightness and no clamp damage) of the speakers before each vehicle ride.

## Installation

1. Screw the clamps to the bottom of the speakers.
2. Find a safe, ideal mounting location and fit the clamps over the chosen mounting bars. Remember to attach the supplied rubber shims to fill the gap for secure clamping and abrasion prevention.
3. Fasten the mounting screws after you review the safety of the mounting location.

## Bluetooth

To pair and connect your Bluetooth device to the MCBK420B Enter Settings > Bluetooth Menu > Search > “Boss Audio MCBK420B”> If Prompted to enter a passcode enter : “0000”.

## AUX Audio Operation

1. AUX 3.5 female input connector for output of other audio device like mobile phone, MP3, iPod and so on.
2. Should use standard 3.5mm 3-pole male plug AUX cable (not included).
3. Stop BT connection first when using the 3.5mm AUX input as an audio source input.
